PROFILE

Python-based Computer Science undergraduate with working knowledge of Artificial Intelligence and AWS cloud services. Experienced in developing and deploying AI/ML models using Python, including computer vision applications with YOLOv8. Familiar with building cloud-native applications on AWS using EC2, EFS, RDS, and Aurora MySQL. AWS Cloud Practitioner certified, with an interest in scalable and intelligent system development.

PROJECTS

AI-Based Plant Disease Detection using YOLOV8

- Designed and implemented a Python-based real-time brain tumour detection system using YOLOv8, PyTorch, and OpenCV
- Trained, evaluated, and optimized deep learning models using PyTorch, NumPy, and Python data pipelines on 500+ labelled plant images, achieving 95% accuracy
- Applied Python-driven computer vision and deep learning techniques leveraging OpenCV and NumPy to build an AI-powered agricultural solution

AWS Cloud Infrastructure

- Built Python-based mini projects such as Tic-Tac-Toe, calculator, and number guessing game, demonstrating strong fundamentals in Python programming.
- Integrated Amazon EFS with EC2 instances to enable scalable file storage
- Improved data retrieval performance by 50%
- Configured NGINX and deployed via AWS App Runner.
- Migrated MySQL databases from Amazon RDS to Aurora MySQL with 99.9% uptime

INTERNSHIP

AWS & Red Hat Linux Intern, Techwing

- Completed a Python programming course and developed Python-based mini projects for automation and problem-solving
- Hands-on experience with AWS services and Red Hat Enterprise Linux
- Contributed to a RHEL-based financial trading platform

Artificial Intelligence Intern, AIMERS

- Developed AI-driven applications including chatbots
- Built analytical dashboards using Power BI
- Worked with Hugging Face models and applied AI tools for real-world use cases

EDUCATION

B. Tech (Computer Science and Engineering) |Godavari Institute of Engineering and Technology | CGPA- 7.60 **2022 - 2026**

Intermediate (MPC) |Government Junior College | CGPA – 7.42 **2020 - 2022**

Secondary School Certificate (SSC) | Nirmala Convent English Medium High School | CGPA – 8.80 **2019 – 2020**

TECHNICAL SKILLS

Programming: Python, SOL

Cloud Platforms: AWS (Amazon Web Services) and REDHAT

AI / Machine Learning: YOLO V8, Hugging Face, Computer Vision

Tools and Analytics: Power BI, Git (Basics)

Interpersonal skills: Quick learner, Leadership, Time management, Adaptability, Accountability.

CERTICATION

AWS Certified Cloud Practitioner
